

Autel EV Charger After-sales Policy

1. Purpose

This service policy is formulated in order to standardize the new energy after-sales service policy in the European market, to provide guidance on after-sales services, to ensure the service work in an orderly manner, and to improve the level of customer service.

2. Scope of application

This service policy is applicable to new energy EV charger products distributed by Autel Europe GmbH and Autel Europe UK Ltd in the European market, excluding Autel Maxi AC chargers sold on e-commerce platforms. Apart from these standard services, bidding projects with different requirements should be analyzed and quoted separately.

3. Autel New Energy EV Charger Products EU Warranty Policy

The standard basic warranty period is 3 years for Autel Maxi AC chargers, and it is extendable up to 5 years with additional payment.

Product	Standard Warranty *	Warranty Extension*	Extension Price
Maxi AC Charger	3 years	Extendable up to 5 years	Annual 6.5%

Standard Warranty*: Consumable parts are not included, see appendix II for more details. If consumable parts are replaced, repaired parts will obtain the warranty aligned to the contractual warranty period or at least 90 days from the replacement.

Warranty Extension*: Warranty extension package must be purchased before charger warranty period expires.

The warranty period is 36 months for AC Charger, starting from the date of the first installation, or no longer than 42 months for AC charger from delivery.

If local compulsory laws and regulations have different stipulations, the provisions of local laws and regulations shall prevail.

3.1 Warranty Service Process

Please follow the procedure below to conduct a self-check prior to calling or emailing our tech support team.

- Check to ensure that all cables are installed correctly and not loose or damaged;
- Make sure the charger plug and the vehicle are well connected;
- Ensure that the vehicle manufacturers’ charging guidelines are followed (may need to lock the doors and check the alert system for vehicle charging status, etc);
- Check to ensure the vehicle software is updated to the latest version, please refer to the vehicle manufacturers’ guidelines; and
- Check to ensure the charger is online – we will not be able to remotely access to an offline

charger for faults diagnosis.

Find a Fault?

- Call Autel tech support hotline (Europe: +49 89 540299608 (in Germany))
- Send Autel tech support email (Europe: evsupport.eu@autel.com), please take pictures or videos of the suspected faults to help us identify the issue

Technical Assistance

- Our engineers will remotely diagnose or contact you for assistance

Return Policy

If the chargers with defect cannot be resolved remotely:

- Chargers used for no more than 3 months will be replaced by brand new ones;
- Chargers used for more than 3 months will be replaced by used functional ones;
- The delivery cost will be borne half by Autel and half by Autel's distributors. For more details, please refer to the dedicated document *Autel EV Charger RGA (Return Goods Authorization) procedure*.

4. Limitations and Exclusions

This warranty policy does not apply to any MaxiChargers which have been subjected to:

- a. Wear and tear, changes to the surface of the MaxiCharger, such as out-casing, socket, screen, charger plug, charging plug, cables etc;
- b. Unauthorized resell or reinstallation by any non-approved party;
- c. Unauthorized repairs or modifications;
- d. Service or installation provided by unqualified technicians under applicable laws and regulations at the place of installation;
- e. Repair with unauthorized spare parts or components;
- f. Extreme-climate conditions or abnormal environmental causes are out of Autel's control, including but not limit to, extreme thermal environment, air pollution etc;
- g. Damage by natural disasters, such as: flood, fire, lightning, or any other human-caused accidents, vandalism, misuse, normal wear and tear;
- h. Moving chargers to different locations performed by any unauthorized/unqualified party;
- i. Defective components during the construction;
- j. Damage caused by vehicle issues; or
- k. Charging sites situated in harsh environments (see appendix III).

5. General Conditions for Warranty Claims

- a. Refurbishment requirement shall be issued through the distributor, from which the customer purchased the MaxiCharger;
- b. No warranty periods or terms shall be extended because of a warranty claim or remedy;
- c. This warranty policy will not cover the subsequent costs of refurbishment, except for delivery costs of refurbishment and the spare parts. Delivery costs will follow the warranty policy of article 3 under this agreement. Any uninstallation or reinstallation is excluded from the warranty policy;
- d. If the MaxiCharger is sold through a distributor, the distributor should offer the name, installation date and installation address of the end customer along with the copy of purchase agreement or installation agreement to fulfil the warranty obligations under this agreement; and
- e. The purchase details including product model and serial number of MaxiCharger should be offered to Autel before or one-week after the installation.

6. Dispute regarding a material defect or a reduced power

In case of a dispute regarding the existence of a material defect or reduced power in a warranty claim, Autel will accept the test result of an accredited testing institute (which can be selected by Autel or the distributor in advance). Autel will not reimburse the cost and expenses for the testing.

7. Force Majeure

Autel shall not be liable for any event which is beyond the reasonable control of Autel and which impacts the execution of its obligations under the warranty policy, including but not limited to, natural disasters, extreme weather conditions, fire, riots, war and military operations, national or local emergency situations, acts or negligence of the government, import, export and/or transit prohibitions, economic disputes of any nature whatsoever, strikes or other labour actions, flooding, lightning, explosions, collapses, disruptions in traffic or power networks, the reduced or non-functioning of networks, systems or equipment of third parties as well as any act of negligence of a person or entity which is outside of the reasonable control of Autel.

8. Validity

This warranty policy shall apply to Autel MaxiCharger Product(s) manufactured after 1st of Dec 2021. This warranty policy shall be valid until a new revision is issued by Autel and is subject to change with prior 3 months written notice.

9. Others

Service cost and other fees will be assessed annually and are subject to change, and the determination of service fees remains with Autel.

Appendix

I. Autel Training Service

Item	Period	Cost details	Note
Training	After delivered	Online Training	200 Euro / hour
		On site: Autel Training Center / Place selected by the client*	800 Euro / day

*In case of on-site training requests, additional flight and accommodation at non-Autel training center should be added.

II. Consumable Parts List

Consumable parts warranty is as follows, which are not included in the standard warranty:

Charger	Consumable Parts	Warranty	Note
AC Charger	Charger plug	1 year	Charging plug cable is included

III. Installation Environment Requirement

Please do not place any Autel EV Charger in the marine environment or outdoor environment near strong pollution sources or in environment with simple shelter. Otherwise, the products are prone to problems such as corrosion and water ingress, which may cause malfunction, and the resulting component damages are not covered by this warranty policy. Pollution sources mean the area within the following radius:

- a. – 1 km from salt water (such as ocean) ;
- b. – 3 km from heavy pollution sources such as metallurgy, coal mines, thermal power plants, etc;
- c. – 2 km from medium pollution sources such as chemical, rubber, electroplating, etc; or
- d. – 1 km from light pollution sources such as food, leather, heating boilers, etc.
